BHAVNESH DEEP

Karachi, Pakistan | bhavneshkarmani485@gmail.com | +92 335-2517485 | linkedin.com/in/bhavneshdeep

PROFESSIONAL SUMMARY

Computer Science graduate skilled in Java, Spring Boot, SQA, and automation testing, with hands-on experience in software development, testing, and SDLC/STLC practices.

EDUCATION

SZABIST, Karachi
Bachelor of Science in Computer Science | Aug 2022 – Present

PROFESSIONAL EXPERIENCE

Software Engineering — Systems Limited, Karachi (Sep 2026 – Present)
• Working in a professional software development environment, gaining hands-on experience in Java, Spring Boot, and AI engineering.
• Developing REST APIs, implementing backend functionality, and learning database integration, microservices, and software design principles..
• Exploring AI technologies, including Python, LLMs, Generative AI, and Retrieval-Augmented Generation (RAG).
• Collaborating with team members to understand requirements, solve technical problems, and follow industry-standard development practices.

Media Consultant & Full Stack Web Developer — West Wide Travel & Tours (Mar 2026 – July 2026)
• Designed, developed, and maintained the company's website and digital platforms using modern web technologies.
• Managed website architecture, backend systems, databases, and server integrations to ensure performance, security, and scalability.
• Implemented responsive UI/UX improvements and optimized website functionality for enhanced user experience.
• Collaborated with stakeholders to troubleshoot issues, deploy updates, and maintain digital infrastructure.

IT Intern — National Bank of Pakistan (Head Office) (Aug 2025 – Oct 2025)
• Executed functional, regression, & UI testing using Selenium and manual testing.
• Worked with Agile teams following SDLC/STLC practices and defect tracking.
• Developed and tested modules using ASP.NET Core MVC, Blazor, SQL Server, and Entity Framework Core.
• Documented test results, defects, and technical processes.

AI Automation Engineer – Eminent Business Advisors (DBA: Eminent Tax) (January 2024 – April 2025)
• Developed Python-based automation solutions to streamline business processes and improve operational efficiency.
• Optimized document processing and workflow automation, reducing manual effort while improving accuracy and productivity.
• Collaborated with cross-functional teams to analyze business requirements, implement automation solutions, and enhance operational workflows.

PROJECTS

Final Year Project – LearnSphere: AI Tutor Hub (2025–2026)
• Developed an AI-powered learning assistant using RAG architecture for personalized student support.
• Built a responsive web application with React.js, FastAPI, MongoDB, and Vector Database.
• Implemented AI Q&A Tutor, Past Paper Solver, Practice Generator, and Topic Search features.
• Designed student/faculty dashboards for performance tracking and content management.
Technologies: React.js, FastAPI, Python, MongoDB, VectorDB, LangChain, OpenAI APIs, REST APIs, GitHub

Book Recommendation System (AI/ML)
• Developed an intelligent recommendation engine using SVD, Content-Based Filtering, Neural Collaborative Filtering, and GNN.
• Preprocessed large datasets and implemented collaborative filtering techniques to improve recommendation accuracy.
• Evaluated and optimized models using RMSE and BPR Loss metrics to ensure high performance and reliability.

E-commerce Testing Automation (SQA)
• Designed and automated functional and regression test cases for critical e-commerce flows including cart, checkout, and search.
• Integrated Selenium with TestNG to enable structured test execution and reporting.
• Validated backend API performance using Postman and verified database operations through PostgreSQL queries.

TECHNICAL SKILLS

• **Languages:** Python, Java, JavaScript, C++
• **AI/ML:** scikit-learn, TensorFlow, Keras, Pandas, NumPy
• **Data Tools:** Power BI, Excel, Jupyter Notebook, Google Colab
• **Testing Tools:** Selenium, Postman, JMeter, Locust, PyTest, TestNG, Junit
• **Cloud & Data:** AWS S3, Databricks,
• **Testing Process:** Manual Testing, Automation Testing, Regression Testing, Unit Testing, Defect Tracking, SDLC, STLC, Agile/Scrum
• **Frameworks & CI/CD:** Jenkins, GitHub Actions, Spring Framework, Spring Boot, Git, Wireshark.
• **Databases:** MySQL, PostgreSQL, MongoDB

LEADERSHIP & VOLUNTEERING EXPERIENCE

Global Shapers Community (WEF) – Member **(2024–Present)**
TechConnect Workshop, SZABIST – Organizer **(Oct 2023)**
TEDx – Core Team **(2024–Present)**
Maheshwari Action Forum (Team MAF) – Core Team **(2022–Present)**
